It is noted that U.S. application 10/799,436 & U.S. Patent 6,794,339 were involved in Patent Interference No. 105,406 in which the applicant received an adverse judgment.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 40-62 are rejected under 35 U.S.C. 102(g) over the sole lost count of Patent Interference No. 105,406.

Claims 40-62 correspond to the subject matter of the sole count of Patent Interference No. 105,406, as to which a judgement adverse to the applicant has been rendered. A losing party is barred on the merits from seeking a claim that would have been anticipated or rendered obvious by the subject matter of the lost count. *In re Deckler*, 977 F.2d 1449, 24 USPQ2d 1448 (Fed. Cir. 1992); *Ex parte Tytgat*, 225 USPQ 907 (Bd. Pat. App. & Inter. 1985). See also MPEP §2308.03.

In this instance, because claims 40-62 are not patentably distinct from the subject matter of the sole count, the claims stand rejected as estopped on the merits by the applicant's loss in the interference. The subject matter of claims 40-62 is generic to the subject matter of the lost count. As per Example 2 in MPEP §2308.03, since the generic claim encompasses subject matter

Art Unit: 1754

lost in the interference, the generic claim must be rejected as estopped on the merits by the loss in the interference.
